AFSHAN NOREEN

Associate MERN Stack Developer | MongoDB, Express.js, React.js & Node.js

Islamabad, Pakistan | 0312-7380814 | afshannoreen010@gmail.com | GitHub | LinkedIn | Portfolio

PROFESSIONAL SUMMARY

Associate MERN Stack Developer (BS Software Engineering, CGPA 3.4) based in Islamabad with **nearly 2 years of practical MERN stack experience** developing, maintaining and enhancing web applications with **MongoDB, Express.js, React.js and Node.js**. Builds responsive interfaces, RESTful APIs and third-party integrations, designs and optimizes MongoDB databases, and implements **JWT authentication, role-based access control** and secure access. Troubleshoots bugs and performance issues, writes clean, reusable code, and works with Git, code reviews and Agile teams, including a live hospital system used by staff.

PROFESSIONAL EXPERIENCE

Tyro Soft (Remote) — Jun 2026 – Present

MERN Stack Developer

- Develop and maintain full-stack features with **MongoDB, Express.js, React.js and Node.js** in a remote, agile environment.
- Build and consume **RESTful APIs**; implement JWT authentication and role-based access control (RBAC).
- Collaborate with international teams via sprint planning, stand-ups and code reviews.

CanDev Software Agency — Feb 2026 – May 2026

Software Developer

- Developed and maintained production applications with React.js, Node.js, Express.js, REST APIs and database-driven workflows.
- Investigated and fixed frontend, backend and API defects; integrated applications with **.NET backend services**.
- **Led migration** of a legacy admin panel to React.js, improving maintainability and simplifying user workflows.

BioNexam — Sep 2025 – Jan 2026

Full Stack Web Developer

- Built a live SaaS platform (**Next.js, Node.js, Express.js, MongoDB**); REST APIs, JWT, granular RBAC and **workflow automation**.
- Optimized MongoDB queries and aggregation-based retrieval for dashboards and reporting.

IDO Innotech — Oct 2025 – Dec 2025

AI-Assisted Full Stack Developer

- Built full-stack features with AI-assisted workflows (Copilot, ChatGPT, Claude), validating generated code with testing.

OnRoad24Seven ApS — Jun 2025 – Sep 2025

Frontend Developer (Part-Time)

- Built reusable **React.js** components integrated with backend APIs for a production transport SaaS platform; debugged API and UI issues.

Business Incubation Center — May 2024 – Aug 2024

Frontend Developer Intern

- Contributed UI components to startup products.

TECHNICAL SKILLS

MERN Stack	MongoDB, Express.js, React.js, Node.js, JavaScript (ES6+), HTML5, CSS3, responsive design and cross-browser compatibility, Next.js; TypeScript (learning)
Backend & APIs	RESTful API development, third-party integrations (Stripe, .NET APIs), JWT authentication, role-based access control (RBAC), web application security, Postman
Databases	MongoDB (schema design, indexing, aggregation, query optimization), SQL, MS SQL Server, MySQL
Practices	Git and version control workflows, code reviews, debugging, performance optimization, testing, deployment support, Docker, Agile/Scrum
Professional	Problem solving, analytical and debugging skills, clear communication, teamwork, quick learner

KEY PROJECTS

MediServe – Medical Certificate Management System — Next.js, Node.js, Express.js, MongoDB

- Live hospital system used by staff; built data models, REST APIs and role-based access for a multi-stage workflow, with audit trails and QR verification.

MERN E-Commerce Management System — React, Next.js, Node.js, MongoDB, Stripe

- Built customer and admin dashboards with REST APIs, JWT auth, order/inventory models and Stripe payments.

EDUCATION

University of Gujrat – BS Software Engineering (CGPA: 3.4) — Nov 2022 – May 2026
